## WE HAVE THE TECHNOLOGY

### I HATE IT SO MUCH I BOUGHT THE COMPANY !

NOT VICTOR, BUT ART, BUYS UP A MICROWAVE COMPANY! Yes, after 25 years of abuse for the Senso type system, it seems we are in the business of selling the stuff. Art has bought up a company that in this country go under the name of D-TEC, who were marketed by ICI. Now that's a new one on me but some of you may know it. So it looks like the salesmen can get there rubber rulers out again (although around my way they never lost them). Dave has recently been sniffing over some of there stuff so may give us some wisdom on it soon. So it looks like we will have something new to bolt down. Lets hope someone tells us how it works first!

### BEST YET !

Last months PHANTOM was a roaring success !!! Even the old man said so ! So we now have recognition from on high. (oh well I suppose that means we'll have to clean it up) Colour photo's eh! bet that had you on the hop. Thought we were a cheap outfit, I bet. And while we are about it we would like to say thank you very much to the avid PHANTOM fan who made the Eddy Sharr touch possible.

### BUMPER CHRISTMAS SPECIAL 9, PES NINE ! PAGE ISSUE !

The PHANTOM does it again with Photo cover, see Simon uncovered undercover, page 8  
Sorry the issue is late coming out. Next time you ask why is this months PHANTOM late, ask yourself, did I write anything !

As you can probably tell the headline was written sometime ago, and probably now doesn't deserve the position. but as my fingers ca'nt stand another re-write, you're stuck with it. Some of us are saying so are we, and it has been suggested a beter headline would have been "We have the Technology", but do we really want it. Well we're certainly stuck with it, so lets hope for the best.

Have a good one and see you in the new year. Leave the wheels at home or sup the L.A. (last ale).
